Millville, NJ 08332-4791

Dear Rob:

As you know, we looked at Crest die cutting equipment several times over a period of a couple of years. When, in August of 2009, the team at The Print Source, Inc. made the decision to purchase the Crest-35 Clamshell Platen I was skeptical that we could reduce our setup times as much as some of your customers claimed.

The training that took place during the installation was excellent. Since we were properly trained to setup the equipment, our setup times have been reduced by at least 33% and our setup waste has virtually been eliminated. The employees are also impressed with how quiet the operation of the press is compared to other die cutting equipment that we own.

Again, I just want to say thanks for delivering on everything that you promised during the sales process.

Sincerely,

Stu Lungwitz
President
